RICH PRIZES OFFERED TO COLLEGE STUDENTS IN AVIATION CONTEST

COLORADO SPRINGS, Colo.—As a result of an unusual amount of interest shown in the Alexander Eaglemore wards for 1929, both the Eagle Rock airplane and an aeronautical scholarship will be offered this year to college students, according to an announcement by J. Don Alexander, head of the Alexander Aircraft company here.

Contestants are now asked to specify whether they are competing for the airplane or the scholarship.

The scholarship has been established in the Daniel Guggenheim School of Aeronautics at New York University.

Four short papers on aeronautics written as briefs, or memoranda, and a brief idea as possible, are required of the competing students.

The manuscripts must be submitted to the Committee on Awards before May 1.

Prof. Alexander Klemin, head of the Guggenheim School of Aeronautics, 1928-29, is chairman of the committee which will select the successful candidates for the scholarship.

A committee of prominent Colorado educators, aeronautical engineers and pilots of the Alexander aircraft will judge the entries.

The awards will be made June 1.

The contest is intended to encourage American college students in commercial aviation, now rated ninth in the ranks of American industries.
